**Product Name :**  
Bending Moment Diagram

**Product Code :**  
LBNY-0005-101000120

**Description :**

Indication of bending moment in beam by low-friction hinge with one degree of freedom.  
Investigation of bending moment on beam mounted on two supports.  
Force gauge and lever arm to indicate bending moment.  
Adjuster nut for horizontal alignment of beam.  
Position of hinge at 1/3 span.  
Two bearing supports.  
Loading of beam by one to three point loads.  
Storage system to house the components.

**Technical Specification :**
