Product Name :
Forces in Various Single Plane Trusses

Product Code :
LBNY-0005-101000125

Description :

Straight and inclined loading possible.
Strain gauge to measure force on each bar.
Investigation of bar forces in statically over determinate trusses.
Surplus bar, longitudinally adjustable.
Measurement amplifier required.
Storage system to house the components.
Experimental set-up in frame.
Software to evaluate measurement data.

Technical Specification :

Forces in Various Single Plane Trusses
