Product Name :
Tubular Heat Exchangers Apparatus

Product Code :
LBNY-0005-10200042

Description :

A small-scale Tubular Heat Exchanger system for use with an Heat Exchange Service Unit to teach the fundamental concepts of heat exchangers.

A comprehensive instruction manual is included.

Comprises a number of sections of concentric tubes, the outer section constructed from clear acrylic for visibility and the inner tube from stainless steel.

The tubes are easily dismantled for cleaning.

Technical Specification :

Tubular Heat Exchangers Apparatus
