Product Name :
Controls Technology Double Sided A Frame Bench Upgrade

Product Code :
LBNY-0005-10300033

Description :

Controls Technology Double Sided A Frame Bench Upgrade system includes a hose rack, an A-frame assembly, a bench manifold assembly, a bench manifold assembly with valves, a bench manifold hose assembly, and an installation guide.

Controls Technology Double Sided A Frame Bench Upgrade
Controls Technology Double Sided A Frame Bench Upgrade allows for an additional Basic Hydraulics Learning System to be used for simultaneous hydraulic work on both sides of the bench. This system upgrades the Controls Technology Learning System Basic Hydraulics to the Double Sided A Frame Bench with Two Hydraulic Manifolds. The bench can also accommodate up to two additional hydraulic options or pneumatic panels.

Technical Specification :

Controls Technology Double Sided A Frame Bench Upgrade
