Product Name :Standard Chemicals Pump

Product Code : LBNY-0005-103000152

Description:

Process configuration permits easy exchange of wearing parts Pump hydraulic design according

Centrifugal pump as accessory for installation

Pump technical requirements according

Drive and water supply provided.

Technical Specification:

Technical Data:

Centrifugal pump (at nominal speed: 1450min-1)

Max. head: 9,5m Max. flow rate: 9,5m³/h Power consumption: 0,5kW

Materials

Shaft: stainless steel

Housing, impeller: grey cast iron.
