Product Name :
Plate Weirs

Product Code :
LBNY-0005-103000238

Description :

Measuring weirs for installation in the experimental flume
Discharge measurement in open channels using 2 measuring weirs
level gauge can be positioned anywhere along the experimental flume
level gauge with scale for determining the head
Rehbock weir with rectangular profile.
Thomson weir with V-profile.

Technical Specification :

Technical Data:

Self-sealing
V-profile: angle of the section 90, height of the
Section 50mm
Rectangular profile, LxW of the section: 60mm
Weirs
Material: PVC
Measuring range
Head: 0...200mm.
