Product Name:
Plate Weirs

Product Code: LBNY-0005-103000238

## **Description:**

Measuring weirs for installation in the experimental flume
Discharge measurement in open channels using 2 measuring weirs
level gauge can be positioned anywhere along the experimental flume
level gauge with scale for determining the head
Rehbock weir with rectangular profile.
Thomson weir with V-profile.

## **Technical Specification:**

## **Technical Data:**

Self-sealing

V-profile: angle of the section 90, height of the

Section 50mm

Rectangular profile, LxW of the section: 60mm

Weirs

Material: PVC Measuring range Head: 0...200mm.
