**Product Name :**  
Power Electronics Training System

**Product Code :**  
LBNY-0005-10500047

**Description :**

It includes single-phase rectifiers, three-phase rectifiers, DC choppers, inverters and application experiments. The Power Electronics Training System consists of 28 experimental modules, a three-phase squirrel cage motor, load, control and measuring devices.

**Technical Specification :**

Power Electronics Training System

**Laboratory Instrument India**
