**Product Name :**  
Clean In Place Unit

**Product Code :**  
LBNY-0005-10700013

#### **Description :**

A stainless steel splash cover protects the pump from spray during laboratory/pilot plant cleaning. Operation is simple on/off control, which gives the maximum flow rate for efficient cleaning. The uses a stainless steel centrifugal pump to provide high throughputs for efficient cleaning. Achievable flow rates are dependent on the backpressure generated by the system being cleaned. Capacities up to 4.0 m<sup>3</sup>/h are achievable with low backpressure systems. Flow rates may be adjusted using a backpressure valve. The has a small footprint and is mounted on a mobile platform, so it can easily be positioned in a lab or pilot environment to meet local CIP needs.

#### **Features:**

High-pressure hygienic flexible hoses and fittings for quick connection to equipment  
5l stainless steel hopper for cleaning solutions  
Simple on/off pump control  
Stainless steel pump motor splash cover.

#### **Technical Specification :**

##### **Technical Specifications:**

5l feed vessel  
Centrifugal pump (0-4 bar, 300-4000 l/h).
