Product Name :
Hydraulic Brakes

Product Code :
LBNY-0005-1080007

Description :

Hydraulic Brakes demonstration panel comprises a disk brake in the front wheel and a drum brake in the driving wheel. Both wheels can be rotated slowly. The cylinder can be moved hydraulically. When the brake is activated both wheels will stop.

The Hydraulic Brakes system covers the following subjects:

Back wheel bind pressure does not drop after releasing pedal

Front brakes failure

Hand brakes

Vacuum loss

Back brakes failure

Brake light failure.

Technical Specification :

Hydraulic Brakes
