Product Name :
Car Air Conditioning System

Product Code :
LBNY-0005-10800029

Description :

Ideal for training in the operation, maintenance, repair and troubleshooting.

Main Features:

- Piston compressor
- Condenser
- Dehydrating filter
- Max. power 2 kW
- Cooling liquid 400gt
- Troubleshooting device for simulation of 4 faults
- Nomenclature table
- Pressure switch
- Resistor
- Thermostat
- Expansion valve
- Evaporation unit.

Technical Specification :

Car Air Conditioning System

Laboratory Instrument India
