Product Name :
Instructional Kit, Assembly with Keys

Product Code :
LBNY-0005-10900024

Description :

This instructional kit provides the necessary material for students to learn systematically how a hub and a shaft can be joined together in a professional way using feather keys. The material is clearly laid out on a plastic tray. The well-structured instructional material outlines all the necessary technical information and provides a step-by-step guide through the exercises. We recommend that the exercises are carried out in a workshop, as all preparations such as filing, drilling, countersinking and tapping must be carried out in a correct and proper manner by the student.

Technical Specification :

Set of material for workshop exercises in feather key joints
Driver sleeve
1 Set of semi-finished items for the production of feather keys to DIN 6885
All parts clearly laid out on a tray
Hub with 1 slot
Shaft with slots
Hub with 2 slots
Multiple trays stackable.
