**Product Name :**  
Instructional Kit, Assembly with Keys

**Product Code :**  
LBNY-0005-10900024

#### **Description :**

This instructional kit provides the necessary material for students to learn systematically how a hub and a shaft can be joined together in a professional way using feather keys. The material is clearly laid out on a plastic tray. The well-structured instructional material outlines all the necessary technical information and provides a step-by-step guide through the exercises. We recommend that the exercises are carried out in a workshop, as all preparations such as filing, drilling, countersinking and tapping must be carried out in a correct and proper manner by the student.

#### **Technical Specification :**

Set of material for workshop exercises in feather key joints  
Driver sleeve  
1 Set of semi-finished items for the production of feather keys to DIN 6885  
All parts clearly laid out on a tray  
Hub with 1 slot  
Shaft with slots  
Hub with 2 slots
