Product Name :
New Energy (HEV) Whole System Troubleshooting and Testing Platform

Product Code :
LBNY-0002-660013

Description :

New Energy (HEV) Whole System Troubleshooting and Testing Platform

Technical Specification :

Power Converter Test Solution for HEV/EV and HEMS

Regenerative power system with highly integrated safety features that protect your devices under test and operators sourcing (power supply) and sinking (electronic load) up to 2000 V, up to ± 800 A, and up to 20 kW
Possibility to create up to 200 kW power or loading through easy parallel connection of up to 10 units.

New Energy (HEV) Whole System Troubleshooting and Testing Platform, New Energy (HEV) Whole System Troubleshooting and Testing Platform Equipments, New Energy (HEV) Whole System Troubleshooting and Testing Platform Tools, New Energy (HEV) Whole System Troubleshooting and Testing Platform Tool Kits, New Energy (HEV) Whole System Troubleshooting and Testing Platform Manufacturers, New Energy (HEV) Whole System Troubleshooting and Testing Platform Suppliers from India, China, Kenya
