Product Name :
Civil Heating Plant

Product Code :
LBNY-0005-11200035

www.laboratoryinstrumentindia.com

Description :

The Civil Heating Plant unit is supplied with a manual which describes all the parts of the trainer, the installation and utilization procedures, as well as many exercises with the relative results.

It enables the student to compare different types of circuit based solutions and to know deeply different kinds of heating systems. The Civil Heating Plant shows the fundamental functions of a heating system for civil use.

Module A: Radiator And Fan Coil

Module B: Floor Heating System

The plant is modular and allows to connect other components. The student is provided with teaching and checkout means that allow him to learn the fundamentals for a correct sizing of the heat production unit, of the distribution circuit and of the radiators.

The Civil Heating Plant is supplied in two versions:

With gas fired boiler

With electrical boiler

Technical Specification :

Weights and dimensions:

Dimensions: 1800 x 1000 x 1900 h mm

Weight: 306 kg.
