Product Name :
Domestic Heating Plant with Gas Fired Boiler

Product Code :
LBNY-0005-11200036

www.laboratoryinstrumentindia.com

Description :

The plant is modular and allows to connect other components. The student is provided with teaching and checkout means that allow him to learn the fundamentals for a correct sizing of the heat production unit, of the distribution circuit and of the radiators.

It enables the student to compare different types of circuit based solutions and to know deeply different kinds of heating systems. The Heating Plant shows the fundamental functions of a heating system for civil use.

Module A: Radiator And Fan Coil

Module B: Floor Heating System

The unit is supplied with a manual which describes all the parts of the trainer, the installation and utilization procedures, as well as many exercises with the relative results.

The Plant is supplied in two versions:

With gas fired boiler

With electrical boiler

Civil Heating Plant With Gas Fired Boiler

High efficiency gas fired boiler:

Leak detector with acoustic alarm.

Power: 24 kW;

Vent stack.

Gas meter.

Technical Specification :

Domestic Heating Plant with Gas Fired Boiler
