Product Name :
Vortex Mixer

Product Code :
LBNY-0001-510006

Description :

Vortex Mixer

Technical Specification :

The Variable Speed Vortex Mixer comes with a rotary dial for speed & time selection.

The Mixer has three operating modes: touch, timed, and continuous modes.

A three-way power switch changes mode of operation from 'touch' to 'timed' or 'continuous'.

The Vortex Mixer is designed for use with interchangeable accessory attachments that can hold test tubes, flasks, beakers, and microtiter plates.

The sturdy metallic base and perfect dynamic balancing eliminates any movements and dampens vibrations while mixing.

Have Variable speed control knob

Allows for mixing of common tubes or containers

Operating mode: ON (continuous), OFF, and TOUCH

Control: digital/ analog

1 tube at a time or/ and with rubber rack

Vortex Type: bench top model

Minimum speed range: 150- 3000 rpm and user settable

Utility Requirement: Electrical power supply: 220VAC \pm 10%
