**Product Name :**  
Starter

**Product Code :**  
LBNY-0005-1200004

**Description :**

Starters can be electric, pneumatic, or hydraulic. In the case of very large engines, the starter can even be another internal-combustion engine. A starter (also self-starter, cranking motor, or starter motor) is a device used to rotate (crank) an internal-combustion engine so as to initiate the engine's operation under its own power.

**Technical Specification :**

Starter
