**Product Name :**  
Internally Ventilated Generator

**Product Code :**  
LBNY-0005-12000011

**Description :**

The new generation of generators has the following characteristics:

Stator with stator winding

Ventilation by internal blower wheels

Rotor with windings and commutator rings

Regulator with power and exciter diodes.

**Technical Specification :**

Internally Ventilated Generator

**Laboratory Instrument India**
