Product Name :
Balancing Model For Wheels

Product Code :
LBNY-0005-120000120

Description :

Demonstration of a dynamic unbalance: wheels flutter. This can be adjusted by changing weights to the correct side. Demonstration of a static unbalance: wheels hop. The wheel axle, which hangs on two chains, is pulled down by springs. This can be adjusted by putting on a counter weight.

Technical Specification :

Balancing Model For Wheels
