Product Name :
Multi Point Fuel Injection

Product Code :
LBNY-0005-120000141

Description :

Self contained fully operational Petrol and Diesel Engine Rigs. Engines can be supplied with fault insertion boards, this allows a range of open circuit and high resistance faults to be inserted, designed to aid teaching diagnostics, fault finding and troubleshooting.

Complete with start, charge, fuel, air-intake, cooling and exhaust systems.

Petrol and diesel engine rigs are manufactured to replicate the engine bay of the donor vehicle.

The petrol and diesel engine rigs offer an enhanced training resource, hands-on training with real components, greater understanding for the student without the constraints of the modern motor vehicle.

Diagnostic sockets are fitted to the engine rigs as appropriate. Optional Fault Board available.

All rotating parts are fully guarded.

Technical Specification :

Engine Rig mounted on a self-contained stand complete with castors

Rotating parts covered by mesh guards

Powder coated paint finish

Fully operational petrol engine rig, complete with fuel, cooling, exhaust and ignition systems

Fitted with manufacturer's diagnostic socket

Based on Petrol Engine, complete with multi-point fuel injection system and electronic ignition system.
