

Email : sales@laboratoryinstrumentindia.com

Product Name :
The Study of microcontroller Electronic Engineering Lab

Product Code :
LBNY-0002-610023

Description :

The Study of microcontroller Electronic Engineering Lab

Technical Specification :

The Study of microcontroller

Main Motherboard:

8-Bit A/D Converter

8-Bit D/A Converter

128x64 Graphical LCD

16x4 Character LCD

The Study of microcontroller Electronic Engineering Lab, The Study of microcontroller Electronic Engineering Lab Equipments, The Study of microcontroller Electronic Engineering Lab Tools, The Study of microcontroller Electronic Engineering Lab Tool Kits, The Study of microcontroller Electronic Engineering Lab Manufacturers, The Study of microcontroller Electronic Engineering Lab Suppliers from India, China, Kenya

Laboratory Instrument India
