

Email : sales@laboratoryinstrumentindia.com

Product Name :
Automotive Safety Trainer

Product Code :
LBNY-0005-120000201

Description :

Learning Content

Establish accident prevention regulations
Recognize dangers on high-voltage components
Get to know the different manufacturer's instructions and methods
Security rules:
Criteria for the use of test equipment
Log steps
Disconnect, secure against reconnection, ensure that there is no voltage
Detailed accompanying documentation with exercise sheets

Technical Specification :

Original service plug
Combine any:
4 different time intervals
4 indicators for battery voltages
4 different manufacturers ways
3 digital voltage displays
No voltages above the low voltage range of 40V
Training of safety precautions during maintenance work.
