

Email: sales@laboratoryinstrumentindia.com

Product Name :Automotive Safety Trainer

Product Code : LBNY-0005-12000020

Description:

Learning Content

Establish accident prevention regulations

Recognize dangers on high-voltage components

Get to know the different manufacturer'sinstructions and methods

Security rules:

Criteria for the use of test equipment

Log steps

Disconnect, secure against reconnection, ensure that there is no voltage

Detailed accompanying documentation withexercise sheets

Technical Specification:

Original service plug

Combine any:

- 4 different time intervals
- 4 indicators for battery voltages
- 4 different manufacturers ways
- 3 digital voltage displays

No voltages above the low voltage range of 40V

Training of safety precautions duringmaintenance work.
