**Product Name :**  
Front Axle Steering Geometry Trainer

**Product Code :**  
LBNY-0005-120000205

**Description :**

It can be used to clearly demonstrate the theory of alignment, the adjustment movement of the wheel, and the measurement of the adjustment. Front Axle Steering Geometry Trainer consists of a scale model front end of a vehicle that incorporates original and simulated parts in order to create the overall mechanism similar in function to an automobile front end steering system.

**Technical Specification :**

Front Axle Steering Geometry Trainer
