Product Name :
Front Wheel Alignment Trainer

Product Code :
LBNY-0005-120000208

www.laboratoryinstrumentindia.com

Description :

A number of gauges and tools are included which resemble actual alignment equipment so that the student may make appropriate measurements and actually perform the real alignment process. Front Wheel Alignment Trainer has been specially designed to teach the principles of alignment in modern passenger cars. It features an original front of end of a vehicle which has been specially modified to facilitate instruction.

Technical Specification :

Front Wheel Alignment Trainer
