Product Name :
Sectioned Hydraulic Brake Units

Product Code :
LBNY-0005-120000214

www.laboratoryinstrumentindia.com

Description :

Each unit consists of one complete brake which has been carefully sectioned in order to expose all key internal parts and is mounted on a wooden base plate. The major types of hydraulic brakes are available as sectioned models, which are very useful in the classroom for demonstrating the different types of brake construction and operation.

Technical Specification :

Sectioned Hydraulic Brake Units
