Product Name :
Vacuum Servo Master Brake Cylinder

Product Code :
LBNY-0005-120000217

www.laboratoryinstrumentindia.com

Description :

The fully functional, sectioned Vacuum Servo Master Brake Cylinder are excellent for demonstrating the operational principles of the vacuum assist process. A handle is attached to the pumping mechanism to demonstrate the function. Key components have been carefully sectioned including the power chamber, booster, slave cylinder, valves and fluid reservoirs.

Technical Specification :

Vacuum Servo Master Brake Cylinder
