Product Name :
Instrument Panel System Trainer

Product Code :
LBNY-0005-120000256

Description :

Instrument Panel System Trainer allows for instructor demonstration, student hands-on reinforcement and troubleshooting practice. The Instrument Panel System Trainer is designed to teach computer and network controlled automotive instrument panel system operation. Powered by a 12VDC automotive battery or a 12VDC/10AMP (minimum) power supply.

Features:

- Intermittent and hard fault codes can be inserted using the built-in keypad, a single computer.
- Ability to perform actual service manual test procedures.
- Actual new vehicle components, connectors, and factory wire colors.
- Provides an advanced level of instruction by duplicating actual on-vehicle troubleshooting procedures.
- Includes internal power supply for fault activation.
- Controlled by Body Control Module (BCM).
- Compatible with Instructor Management Program (IMP).
- Battery posts are protected against polarity reversal.
- Operated as a stand-alone trainer, or connected to the Lighting System Trainer and the Power Door Lock Trainer to teach and demonstrate vehicle systems integration.
- Courseware includes Instructor Guide, Student Manual, and Service Manual Information.
