Product Name :
Electrical And Electronic Skills Training Device

Product Code :
LBNY-0005-12100023

Description :

Features:

The electrician is adopted a mash plate structure. Suitable subjects: electrician training, electrical training, electrical control technology, electric drive control circuit and skills training, electronic training and related experimental and educational subjects.

Technical Specification :

Working temperature: -10~40 relative humidity 85%(25)

Power source: three-phase four wire (or three-phase five wire) ~380V+5% 50Hz; 1.0KVA
