**Product Name :**  
Commercial Refrigeration Unit With Fault Simulation

**Product Code :**  
LBNY-0005-12100045

**Description :**

Commercial Refrigeration Unit With Fault Simulation device can be used to train students to master the theoretical knowledge and practice skills of the commercial refrigeration system.

**Features:**

- Selection of cooling stage via solenoid valves
- Semi-hermetic piston compressor, air-cooled condenser
- Mobile refrigeration unit with normal cooling stage and deep-freezing stage
- Individual and parallel operation of the cooling stages possible
- All fans are speed-controlled
- Cooling stages: insulated chambers with air-cooled evaporators
- Built in faults set module.

**Technical Specification :**

Commercial Refrigeration Unit With Fault Simulation

**Laboratory Instrument India**
