Product Name :
Single Sided Hydraulics Trainer With Troubleshooting

Product Code :
LBNY-0005-121000130

Description :

The Single-sided Hydraulics Trainer has the same superb capability for teaching a course in basic through advanced hydraulics. However, an extensive component package has been added to increase its capability to include a comprehensive course in troubleshooting hydraulic components and systems.

Educational Advantages:

Allow students to:

Activate one or more switches which instantly transforms one or more healthy components into one or more worn components

Teach a complete course in basic and advanced hydraulics

Troubleshoot hydraulic components and systems.

Technical Specification :

Include:

Troubleshooting package

Optional load-sensing and plug-n-play modules

The same components as the single-sided basic through advanced hydraulics trainer.
