Product Name :
Double Sided Basic Hydraulics Trainer

Product Code :
LBNY-0005-121000132

Description :

The trainer features a fully functional double-sided basic hydraulic system with OEM components. The Double Sided Basic Hydraulics Trainer simulator is designed to help students learn all aspects of hydraulics that includes: basic hydraulic principles and laws, how hydraulic components interact, how hydraulic components work, hydraulic symbols, and problem solving skills.

Technical Specification :

Educational Advantages:

Can be configured with hydraulic components of your choice
Designed to help students learn all aspects of hydraulics that include:
Basic hydraulic principles and laws
Hydraulic symbols
Problem solving skills
How hydraulic components work
How hydraulic components interact.
