Product Name :
Double Sided Hydraulics Trainer With Troubleshooting

Product Code :
LBNY-0005-121000144

Description :

The Double Sided Hydraulics Trainer With Troubleshooting has the same superb capability as the Double Sided Basic Through Advanced Hydraulics Trainer model for teaching a course in basic through advanced hydraulics. However, an extensive component package has been added to increase its capability to include a comprehensive course in troubleshooting hydraulic components and systems.

Educational Advantages:

Allow students to:

Troubleshoot hydraulic components and systems.

Teach a complete course in basic and advanced hydraulics.

Activate one or more switches which instantly transforms one or more healthy components into one or more worn components.

Technical Specification :

Include:

Troubleshooting package

The same components as the Double Sided Basic Through Advanced Hydraulics Trainer

Optional load-sensing and plug-n-play modules.
