Product Name :
Single Sided Hydraulics Trainer With Touch Screen

Product Code :
LBNY-0005-121000150

Description :

The Single Sided Hydraulics Trainer With Touch Screen has the same impressive capability for teaching a course in basic through advanced hydraulics. This is an excellent feature for machine and equipment manufacturers who want to teach their personnel and clients how to setup and/or troubleshoot their own machines. As an added option, you can program any machines hydraulic system into the PCs database. In addition to having all the practical hydraulics activities programmed into the onboard PC touch-screen, there is also an extraordinarily comprehensive diagnostics program.

Educational Advantages:

Allow students to:

Troubleshoot hydraulic components and systems

Have all the practical hydraulics activities programmed into the onboard

Program any machines hydraulic system into the PCs database

Teach a complete course in basic and advanced hydraulics

PC touch-screen

Technical Specification :

Include:

Optional load-sensing and plug-n-play modules

Panel PC with 15 color touch-screen.
