Product Name :
Three Phase Wattmeters 60 HZ

Product Code :
LBNY-0005-121000156

www.laboratoryinstrumentindia.com

Description :

The wattmeters are housed in fully enclosed, portable half-size modular unit. Schematic diagrams and specifications are silk-screened onto the back of the front panel of each unit. The Three Phase Analog Wattmeters consist of two 300W meters wired together to measure the real power in three phase systems. Interconnections between components and connections are made through standard color coded safety sockets with banana plug jumper leads. Switches are provided to invert negative readings. Included in the Rotating Machines Trainer for 1/3 hp - 250 W.

Educational Advantages:

Switches are provided to invert negative readings
Consist of two 300W meters wired together to measure the real power in three phase systems.

Technical Specification :

Power scale: 0-300 W AC/DC
Accuracy: $\pm 2\%$
Negative and positive control switch
Two (2) 300W wattmeters included
Max. current: 2 A AC/DC
Max. voltage: 250 V AC/DC
Frequency: 60 Hz.
