Product Name :
Mechanical Load Mounting Base

Product Code :
LBNY-0005-121000174

www.laboratoryinstrumentindia.com

Description :

It is used to hold the units included in the Mechanical Load Assembly. Can also be inserted in the machine coupling bases. The Mechanical Load Mounting Base is made from rigid black laminate and is equipped with carefully spaced mounting holes to ensure safe connections.

Educational Advantages:

Equipped with wing screw anchors to safely bolt the units in the experiments
Rigid laminated wooden base.

Technical Specification :

Material: Laminated wood, black
Number of screw anchors: 4
Screw length: 5 cm (2")
Dimensions: 25 cm x 31.25 cm x 20 cm (10 " x 12 ½" x 8")
Weight: 1.36 kg (3 lbs).
