Product Name :
Regulated DC Power Supply

Product Code :
LBNY-0005-121000177

www.laboratoryinstrumentindia.com

Description :

It is equipped with voltage selector, overload and ON/OFF lamp indicators. The Regulated DC Power Supply is used for DC experiments. Regulated DC Power Supply is regulated at lower than 0,5%.

Technical Specification :

Line Voltage Regulation: Lower than 0.5% with line voltage fluctuation of $\pm 10\%$

Load Voltage Regulation: Lower than 0.5% with maximum load fluctuation

Output Voltage Selector: 1.5, 3, 5, 6, 9, 10 V DC, 2 A max.

Ripple Ratio: Lower than efficient 2 mV

Supply Input: 120 VAC, 46 VA, 60 Hz

Protections:

a. Input: 0.6A slow blow fuse

b. Output: Solid state current limit

Operating: Green LED indicator

Short-circuit: Red LED indicator

Power Switch: ON/OFF (I/O).
