Product Name :
Motorcycle Electronic Fuel Injection System Trainer

Product Code :
LBNY-0005-121000203

www.laboratoryinstrumentindia.com

Description :

It can be based on any model of your choice and designed to incorporate any components you require. The Motorcycle Electronic Fuel Injection System Trainer includes a complete OEM motorcycle electronic fuel injection system and engine management.

Educational Advantages:

- Electronic control module (ECM)
- Injection system including four (4) injectors on OEM rails
- DC electric motor to simulate the engine speed (RPM)
- Data Link Connector (DLC) for complete diagnosis
- 120-V AC/12-V DC supply unit with protective circuit
- CKP and CMP assemblies
- Speedometer
- Control panel
- Fan motor
- Eight (8) liters of injection liquid
- Injected liquid pan
- OEM fuse block
- Fuel reservoir.

Technical Specification :

Motorcycle Electronic Fuel Injection System Trainer
