Product Name :
Waste Spark Ignition System Trainer

Product Code :
LBNY-0005-121000237

Description :

The distributor less trainer is mounted with OEM components. The Waste Spark Ignition System Trainer is a training board used to teach the waste-spark electronic ignition system that is usually installed on some four-stroke cycle internal combustion engines. Requires a 12VDC power supply to operate.

Included Components:

Crankshaft position (CKP) sensor with gap adjustment
Ignition control module
Spark plugs and plug wires
Electric motor driven crankshaft sprocket
Motor speed controller
Test points for diagnosis
Requires a 12VDC power supply to operate
Fault box with 4 faults.

Technical Specification :

Waste Spark Ignition System Trainer
