**Product Name :**  
Double Sided Brake Trainer

**Product Code :**  
LBNY-0005-121000264

**Description :**

The Double Sided Brake Trainer is built with OEM components and is based on the non-ABS Toyota Yaris platform. The double sided two-wheel hydraulic brake system trainer is used to demonstrate the functionality of a typical hydraulic braking system as it operates on a real vehicle. This space saving double work station can be used in the classroom environment for demonstrations to students.

**Educational Advantages:**

- All brake system components are accessible for complete mechanical and hydraulic repair and service
- Space saving double work station
- Demonstrates full functionality of a 2-wheel hydraulic brake system
- Provides easy access to all brake components without the confinements of a vehicle
- Provides two separate 2-wheel braking systems each with its own master cylinder and pedal.

**Technical Specification :**

Double Sided Brake Trainer

**Laboratory Instrument India**
