Product Name :
Four Wheel Hydraulic Brake Trainer

Product Code :
LBNY-0005-121000293

Description :

The trainer can be used in the classroom environment for demonstrations to students. The trainer provides a safe and effective method of demonstrating the principles of hydraulic braking systems used on today's vehicles. The Four Wheel Hydraulic Brake Trainer Honda four-wheel hydraulic brake system trainer is used to demonstrate the functionality of a typical non-ABS braking system as it operates on a real vehicle.

Advantages:

Provides easy access to all brake components without the confinements of a real vehicle
Demonstrates full functionality of a 4-wheel hydraulic brake system
Pressure gauges show actual braking pressure at each wheel

Features:

Real automotive components with fully functional disc/drum hydraulic braking system including:
Heavy duty metal stand with casters for easy transport (two fixed and two swivel w/locks)
Hydraulic pressure gauges at each wheel
Fully functional parking brake system
Fits through a standard 30 door opening
All routine brake service procedures can be performed on this trainer including:
Disc/Drum service
Wheel bearing service
Master cylinder service
Brake hose/line service
Brake pad/shoe replacement
Caliper/Wheel cylinder service.

Technical Specification :

Four Wheel Hydraulic Brake Trainer
