Product Name :
Workshop Welding Wire

Product Code :
LBNY-0004-740013

Description :

Workshop Welding Wire

Technical Specification :

Welding wire

TIG Welding Filler Wire (5) A premium, multiple deoxidized welding filler wire. Produces high-quality welds in most grades of carbon steel. Welding wire is a triple deoxidized wire which provides defect free weld deposits when properly used on most carbon steels. It is used especially for pipe welding.

Welding wire 0.8

TAGS filler wire 1.6 and 2.4 Diameter
