Product Name :
Workshop Nibbler

Product Code :
LBNY-0004-740016

Description :

Workshop Nibbler

Technical Specification :

Nibbler

The Nibbler is a premium quality product made of high-quality materials. The blade and punch are made of high-speed steel and the body is made of cast iron, which is then covered with a protective polymer coating.

It comes in a metal case to protect it from any damage during transportation. The Nibbler has a solid and robust design that ensures stable and reliable performance.

The Nibbler has a comfortable handle that allows you to rotate the machine on the spot easily and quickly, as well as a hollow round punch that enables you to operate it on an interior cutout or notch. This makes it perfect for working on complex applications.

Standard for welding

Machine Power (W) = 380

Voltage (V) = 230

Frequency (Hz) = 50

Out-Put Speed (rpm/min) = 1700

Machine Speed (rpm/min) = 30000

Mini cutting radius (mm) = 25
