Product Name:

Portable Digital Press 56KN Capacity

Product Code: LBNY-0005-1220007

Description:

The load is applied by a hand pump, and is measured by a high precision electric load cell with a digital display unit range 0-56 KN. Portable Digital Press 56KN Capacity Used for compression tests on small cylinder specimens and core samples up to dia. 60x100 mm. Providing:

0,001 KN resolution 65.000 divisions Hysteresis: 0,03% Repeatability: 0,02%

Linearity: 0,05%.

Technical Specification:

Complete with wooden carrying case, accessories.

The compression platens have dia. 65 mm., the upper one has a spherical seat and the vertical daylight is 110 mm.

Dimensions 370x320x710 mm.

Weight 25 kg.
