Product Name : Pull Out Test Apparatus

Product Code : LBNY-0005-1220003

Description :

The standard equipment to Specification and comprises hydraulic extraction unit 100 kN capacity with pump, precision manometer 0-100kN, bearing ring, 10 steel discs 25 mm dia. carrying cases. Used to evaluate the concrete resistance as per the strength applied to extract a disc embedded into concrete.

Technical Specification :

Weight: 18 kg
