Product Name :
Universal Electric Core Drilling Machine

Product Code :
LBNY-0005-12200066

Description :

Comprising:
Universal drilling frame complete but without electric motor
Electric Motor Complete
Coring angle: 0 to 360°
The excursion group is rectified to assure a very soft and accurate drilling movement. The excursion is 550 mm. The height of the vertical column is 1000 mm and it is pre-built for extension column connection. Electric motor at three speeds: 670, 1140, 1580 rpm with speed reducer, provided of friction device and switch to CE Safety Directive.
Three speed electric motor with friction device
Rectified excursion group
Connection to coolant water supply
Robust, compact, wheels mounted
Coring angle: 0 to 360°

Technical Specification :

Power supply: 230 V 1ph 50/60Hz 2200 W
Dimensions: 440x750x1300 mm
Weight: 85 kg.
