Product Name :	**Product Code :**
Multiplex PCR System Cartilage Based	LBNY-0001-600003

Description :

Multiplex PCR System Cartilage Based

Technical Specification :

Multiplex PCR system that integrates sample preparation, amplification, detection and analysis.
This simple system requires just 2 minutes of hands-on time, with a total run time of about an hour – you get fast results to assist in better patient care. the system enables simultaneous testing for bacteria, viruses, yeast, parasites and/or antimicrobial resistant genes.
It is designed to be used with comprehensive panels that each offer testing for sets of pathogens associated with some of today's most pressing healthcare challenges.

Reagents
Freeze-dried in durable plastic pouches
Room temperature storage
Comprehensive: Tests for a variety of pathogens that cause viral respiratory, pneumonia, bloodstream, gastrointestinal infections and meningitis-encephalitis as well antimicrobial resistance genes.

Instrument Specifications:
Weight: 9 kg (20 lbs)
Size: 25.4 x 39.3 x 16.5 cm (10 x 15.5 x 6.5 in.)
Performance Parameters
Hands on time: 2 minutes
Run turn-around time : 1 hours

Environmental Specification:
Operating: 15°C to 30°C at 20 to 80% humidity
Storage: -30°C to 65°C
Desktop Software
(Pre-loaded on supplied laptop)
Windows-based instrument control and data analysis software
Barcode reader for data input
Automated qualitative and reporting
Separate advanced analysis software
Software the entire process - from sample to result. When the run is complete, the software analyzes and reports results in a simple, easy-to-read format.
Electrical
