Product Name :
Combination of Shearing Brake and Rolling with Strong Structure

Product Code :
LBNY-0005-12300029

Description :

Features:

For shearing & bending, both can achieve single stroke and continuous stroke.
The back gauge adopt data control system, the adjustment is quickly and exactly.
Ideal Combination of Shearing, Brake & Rolling with Strong Structure.
For the Rolling, the processing for the taper rolling is very easy.

Technical Specification :

Combination of Shearing Brake and Rolling with Strong Structure
