Product Name :
3 Roll Pyramid Type Mechanical Plate Bending Machine

Product Code :
LBNY-0005-12300036

Description :

Features:

PBM SERIES (Mechanical)

The top roll adjustment is by Screw Jack

3 roll PYRAMID type design machine

Bending rolls are made of alloy steel

Bottom rolls are power driven

PBM SERIES (Hydro-Mechanical)

Bottom rolls are power driven

Bending rolls are made of alloy steel

3 roll PYRAMID type design machine

The top roll adjustment is by Hydraulic Cylinder

3 Roll Pyramid Type Mechanical Plate Bending Machine:

The upper roll is having manual up & down adjustment to achieve desired bending radius. In this machine, the bottom rolls are driven by electric motor & gear box. This is a very simple & robust design machine suitable for light to medium jobs. The PBM series 3 Roll Pyramid Type Mechanical Plate bending are designed to cater the basic requirements of bending & forming of metal plates.

Technical Specification :

3 Roll Pyramid Type Mechanical Plate Bending Machine
